

No Cash? Use Venmo for Credit Card and Digital Purchases!

What is Venmo?

Venmo is a person-to-person mobile payment service that allows people to send and request funds from one another instead of cash or checks. Venmo is a simple and secure way of sending money straight from your phone!

Money sent to and from your Venmo can be easily transferred to your bank account so you can access and withdrawal it at your own convenience. As a bonus, Venmo does not charge for sending money from a linked bank account or debit card.*

**There is a 3% fee for sending money using a linked credit card.*

Why use Venmo?

People use Venmo all the time to pay their friends, family, and even some businesses. Making a Venmo account changes the game for donations. Instead of going through a formal process, people can now send you money just like they would for people they know.

How to use Venmo

1. Download the [Venmo](#) app.
2. Choose your sign-up method and create your password.
3. Verify your phone number and email address.
4. Add and verify your bank account.
5. Change your username and add a profile picture that represents your nonprofit.

Your Venmo account will generate a QR code that you can display either on your device screen or print and have displayed on your table. The person can use their phone to scan that QR code, and instantly be directed to where they can send you the money and/or donations to purchase their candy. [Check out these Tips and Tricks](#) for the best ways to use Venmo for your Candy Sale!

IMPORTANT! Camp Fire Central Puget Sound does not accept Venmo accounts or balances directly, if you elect to use a Venmo account to support your candy sales and/or donations, you will be responsible for transferring those funds to provide Camp Fire Central Puget Sound with a cash or check return.
