

welcome TO THE ACHIEVERY

The Achievery is a resource bank of activities you can use during programming as either individual lessons or self-guided supplements for youth participants. The activities are all accessible via the Achievery website. They include videos and printable lesson plans. Some of the activities include...

Social Emotional Learning

Youth develop life skills to be kind, face their fears, practice self love, set goals, deal with stress, and more.

Digital Literacy

Youth learn how to act responsibly on the internet, deal with cyberbullying, manage screen time, and communicate well with others online.

Environmental Education

Youth learn more about how the environment functions and how to care for it and protect it.

STARFLIGHT

SUPPLEMENTAL PROJECT ACTIVITIES:

- Complete these Achievery activities, as well as the other Trail activities in the Starflight curriculum, to earn an emblem!
- These can be done at home or during program.

TRAIL TO CREATIVITY

Project: Bright and Bold

The Color Wheel

Colors are a key element of creative expression. With colors we can express so much, including emotions, temperature, mood, depth and perspective. Therefore, it helps to understand how colors work. In this video, you will learn how colors are created and how you can create your own color wheel.

Create your own
Color Wheel

TRAIL TO CREATIVITY

Project: Just Imagine

Painting With Water

Painting with water is a process-based art making activity where students are encouraged to explore artmaking materials and water and working collaboratively. This activity can have multiple curricula applications – e.g. students can learn how to spell, explore arithmetic equations, or explore an aspect of Social Studies.
